GENERAL INFORMATION

Auctioneer's Foreword

Bletsoes are delighted to be conducting this exciting sale of Pedigree Southdown Sheep, after the great success from the 1st Sale last year. The sale is a refreshing and dynamic way of buying and selling sheep in the traditional way by auction, it is also geographically an Auction near the South and East coasts, closer to where the breed originated. The market is well situated with an excellent road network to make traveling to the sale simpler.

The sale has been designed to enable vendors to market their sheep without the worry of vet inspections and minimum weights or the pressure of the showring. But also give purchasers a guarantee to purchase genuine quality sheep. Buy with confidence, our auction rules and LAA Sale Conditions assist both the buyer and vendor to be assured they are covered for any issues that may occur, along with genuine vendors who are passionate about the breed and their stock.

For those unfamiliar with the breed of Southdown are a traditional breed that thrive, grow and produce easily finished lambs with low inputs, better than many other breeds, finishing on grass and milk which is very important with the ever-increasing pressure on high production costs we are currently experiencing. They are particularly known early finishing and easier lambing, the latter quality making them ideal for use on ewe lambs and older ewes.

We look forward to welcoming you to Thrapston Market and hope you have a good experience when visiting. We hope to have an excellent sale for both vendors and purchasers. If you have any questions prior to the sale, please do not hesitate to contact us.

Alastair Brown
Auctioneer and Head of Auctions

Thank you again

I would like to record my thanks to Alastair and Beth for their hard work in helping make this sale happen a second time. This event is slowly growing and provides a valuable early opportunity in the East to buy pedigree Southdowns. It's great to welcome a number of new sellers to this sale as well. Last year we found the lighter touch approach, and realistic and fair prices made for excellent clearance rates and satisfied customers. Let's hope everyone has as good a day as we had last year and as many sheep as possible find welcoming new homes.

Patrick Goldsworthy MBE

About the Sale

Pedigree information has been extracted from the Pedeweb database.

**So that the Society does not miss out the auctioneer will be donating £10/flock entered to the Society.*

The final catalogue has been prepared by Bletsoes and Patrick Goldsworthy based on the information provided by the breeders participating in this sale. The details about their flock and their animals is their responsibility of the breeder and not that of the Southdown Sheep Society. If you have any queries about the sheep please contact the relevant breeders.

The Marshland flock was established in 2002 and since then we have endeavoured to continually improve the flock by buying in rams from notable breeders. We have had considerable success in the show ring, but always with the aim of breeding a hardy ewe that can rear good lambs on our rough Norfolk grazing marshes. Our sheep are fully vaccinated with Heptavac P Plus.

The Heritage flock was founded in 2019 and is based on the core of the Spratton flock and existing Webb Ellis ewes that had Great Fen, Spratton or Holly Bar breeding lines. These are the more traditional type of Southdown which finish quicker at a lighter weight 32-36kg. Selection is based more on looks and pedigree – no Modern French genetics - rather than growth rate, although performance recording data is being used to improve muscling and maternal ability.

Health Info: Although not MV accredited the flock has been screened for MV four times in the last six years All adult and shearling ewes and rams are on Heptavac P Plus. These have also received one dose of Footvax in Nov 2023. Lambs have not yet been treated with Heptavac or Footvax. All animals will have been wormed Please ask for precise dates and batch numbers.

Webb Ellis - 968 - Patrick Goldsworthy MBE

Address and contact details as above

The Webb Ellis flock was founded in 2009 with the current the core breeding lines from the East Dean and Heathgate flocks. These have been improved over the years using performance recording to select sires which enhance muscling, growth rate and maternal ability. The progeny are more “commercial” in type and are producing heavier lambs - 38-42kg. As part of this improvement some NZ and Modern French genetics have been used in the flock. EBVs are listed against each animal.

Health Info: Identical regime to Heritage flock see above.

The All Saints flock was founded in 1987 on Moulton bloodlines, the leading flock for many years. The flock has been a closed flock for over 20 years with only select, quality rams being introduced when necessary. The All Saints flock has enjoyed considerable success in the show ring for well over 30 years.

The sheep flock is one of a number of enterprises on our commercial farm and fits in with arable enterprises and the herd of rare breeds of cattle. The focus is on producing animals that are ‘trouble-free’, that lamb easily and fit in with our extensive grazing system.

The flock is vaccinated with Heptavac P Plus, Toxovax and treated with Crovect / Clikzin. All ewes receive an annual Agrimin 24-7 SmartTrace bolus.
